

Proposition 65 Information	1114	Water	1134-1135
Hose and Coupling Safety	1115	Water constants and formulas.....	1134
General Safety Information	1115	Water discharge table.....	1134
Safety Is Everyone's Job	1116 - 1118	Conversion table - feet of water to inches of mercury	1135
Be Safe	1116	Feet head of water to PSI	1135
S.T.A.M.P.E.D.	1116	Thread Information.....	1136-1141
Force chart	1117	Pipe threads	1136
Safety products and recommendations in the DPL.....	1117	NPT vs. BSP (British Standard Pipe).....	1136
MSHA regulations	1117	Identifying threads	1137
OSHA regulations.....	1118	Thread types.....	1138
Value Add Programs.....	1119	Thread sealing tips	1139
Solutions on Site vans by Dixon®	1119	Thread dimensions	1140
Best practices safety assessment.....	1119	Normal engagement length of NPT thread	1140
Hose coupling workshop.....	1119	Thread chart for hydraulic fittings.....	1141
Material Selection	1120-1125	Fittings size chart.....	1141
Selecting materials	1120	Flange Dimensions	1142-1143
Corrosion resistance ratings	1120-1125	Flange bolt tightening sequence.....	1142
Fraction – Decimal Chart	1126	Flange diagrams	1142
Conversion Constants/Formulas	1127	ANSI flange dimensions	1143
Measures of pressure.....	1127	Pipe Dimensions	1144
Length conversions constants.....	1127	Dimensions of seamless and welded steel pipe	
Weight conversion constants.....	1127	ASA-B36.10 and B36.19	1144
Circumference of a circle	1127	Cross reference from NPS to DN specification	1144
Right cylinder.....	1127	Valve Selection Guides	1145-1146
Temperature	1128-1130	Valve selection guide.....	1145
Temperature conversions	1128	3-way ball valve flow options	1146
Steam temperature and pressure conversion guide	1129	BPE DT Table Call Out	1147
Pressure – temperature ratings.....	1130	Pipe Gasket Sizing Guide	1148-1149
Air	1130-1133	Particulate Reference Chart.....	1150
Air velocity in a pipe.....	1130		
Air volume discharged from pipe.....	1130		
Boyle's law.....	1130		
Air supply requirements.....	1130		
CFM vs. PSI for nozzles.....	1131		
Air receiver capacities	1131		
Air hose friction.....	1132		
Max. rec. air flow (SCFM) through ANSI metal pipe.....	1133		
Suggested pipe size for compressed air flow.....	1133
